Fixed Index Annuity

PrimePath Feature Focus Lifetime Payment Amounts (LPAs)

Any seasoned traveler will tell you that one of the most important items you can have along any journey is a map. It can help guide you and also allow you to chart your own path. Your PrimePath fixed index annuity can help with your retirement journey in a similar way, especially when it comes to your retirement income.

With your PrimePath fixed index annuity, you have the option of electing lifetime payment amounts (LPAs) for your retirement income¹. If rising costs are a concern for your retirement, you may want to consider the Increasing LPA option. While you would receive a lower initial LPA than with the level option, your LPA would increase based on the average interest credited to your fixed and index accounts.

Hypothetical Example

Benefit Base:

\$208,728

Age:

70 (Issue age 60)

Level Payout:

5.40%

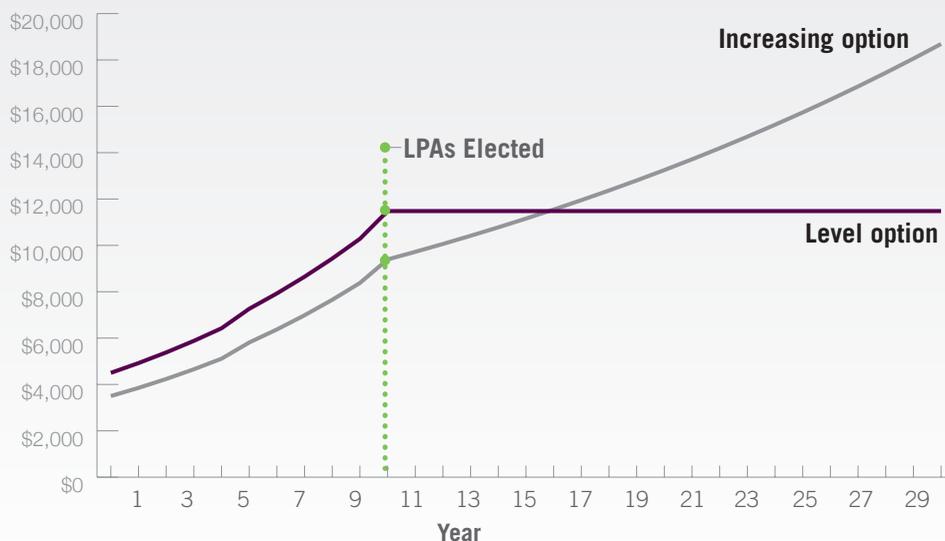

Increasing Payout:

4.40%

LPA Increase Percentage:

LPA Increase percentage is 3.5%, which is 100% of the hypothetical assumed average annual interest credit percentage to the accumulation value.

	Level LPA	Increasing LPA
Initial	\$11,271	\$9,184
Age 75 (5 years)	\$11,271	\$10,908
Age 80 (10 years)	\$11,271	\$12,955

This hypothetical example is not intended to predict future performance. Alternative assumptions could produce different results.
